HERITAGE

My dad opened Midtown Chicago with his father in October of 1970. The Chicago club was our original location, and over time we grew across the continent. When I joined the business, my father had already built Midtown into the country's premiere tennis club chain.

In 1988, after eighteen years as tennis-only clubs, we decided to grow our hard-earned expertise in tennis into new areas, including fitness, wellness, and lifestyle. Then, in 2017, we transformed the business again. Boutique fitness studios were changing people's relationship with exercise and wellness. We saw an opportunity—to rebuild our clubs as 'sports and wellness resorts', taking the best

ideas from boutique fitness to create unique signature experiences at Midtown. We did the same for tennis, focusing on our experiential programming for beginners and experienced players alike. We also expanded the breadth and quality of our resort-like environments, like the café, pools, social spaces, and locker rooms. And we put it all under one roof.

Welcome to the club,
Steven Schwartz, CEO

FAMILY AMENITIES

KIDTOWN

Drop your kids off at Kidtown and enjoy your workout knowing they're having just as good of a time as you are. Maybe better. Kids will play sports, be artistic, and have fun while being supervised by friendly associates who treat them just like members. Family and Parent + Children memberships include 1.5 hours of complimentary childcare.

CAMP MIDTOWN

We have multiple summer camps to help your kids make the most of their vacation. Plus, we have day camps for all the holidays your kids have off school. They'll play games, build self-confidence, and learn how to live a healthy, active lifestyle from our expert coaches and professional counselors.

MIDTOWN'S STANDARD OF CLEAN

LIFESTYLE

The moment you first walk into the club you will notice what makes us different: our higher standard of clean. We took inspiration from hospital ICUs to develop our industry's most innovative cleaning protocols and technology.

43

AIRPHX

AirPHX (pronounced "Air-fix") technology provides 24 hour sanitization of ambient air plus all exposed surfaces, including fitness equipment, weights, turf, rubber, wood and tile surfaces. Viruses and bacteria don't stand a chance.

AOS

We use AOS (Aqueous Ozone Solution) as our standard cleaning fluid in the clubs. AOS is non toxic, with no harmful side effect on humans (for skin contact, eye contact, and even ingestion--though we don't recommend it). This is a complete cleaning solution and can be used for all surfaces--including laundry. Plus, it's 100% sustainable and greener than green.

WE ARE ALL CLEANERS

All Midtown associates are now part of our housekeeping team. Every team member is equipped with a bottle of disinfectant, a towel, and all the necessary training on best-in-class cleaning techniques. Our challenge to ourselves: 'ABC, or always be cleaning'.
